am," he would say. "Why, it is coming out all right. I know it. I don't worry."

At last it came time to my remedy. Mrs. Ma. Hurre, who had been trying so bravely to keep back the tears, broke down and sobbed bitterly.

"Oh, my, little girl, this won't do at all," she said. "I don't know. If you know this way I can't come to see you again."

I was afflicted with Blood Poison, and the best doctor did me no good, though I took their treatment faithfully. In fact, I seemed to get worse all the while. I took almost every medicine I could find, but they did not seem to reach the

other hand, his condition will grow steadily worse. S. B. S. is the only cure for this terrible affliction, because it is the only remedy that goes direct to the cause of the disease and forces it from the system.

"No, no; you see never come to me again, I know it. Lonia, my darling boy, I know it," cried the little wife. She embraced his hair and patted his cheeks and looked long and lovingly into his eyes. Then their lips met in a sweet, long, lingering kiss and he came away. Within an hour Sarah was back again in his cell in the Tomb.

According to a celebrated anatomist

There are upwards of 5,000,000 little glands in the human stomach. These glands pour out the digestive juices which dissolve or digest the food. If digestion is want of juice, weakness of glands, need of help to restore the health of these organs. The best and most natural help is that given by Shaker Digestive Cordial. Natural, because it supplies the materials needed by the glands to prepare the digestive juices.

able to disengage and invigorate the glands and the stomach, and they are able to do their work alone. Stomach Digestive Cordial cures indigestion certainly and permanently. It does so by natural means, and therein lies the secret of its wonderful and unvaried success.

At druggists, price 10 cents to \$1.00 per bottle.

An Ankle Problem.

Once upon a time there were two old men who set to the market early every morning and sold apples, and so the old men sold three for a cent. In that way the first old man got 10 cents for his basket of apples, while the second man received only 10 cents, not that neither the first nor the second was stupid. But one day the old apple man who sold three for a cent was too sick to go to the market and he asked his neighbor

to take his apples and sell them for him. The old man very kindly consented to do it, and when he got to the market with the two baskets of apples, he said to himself: "I will put all the apples into one basket, for it will be easier to pick them than out of two baskets." So he put the 60 apples in one basket and he went to the market. "Now, if I sell two apples for one cent," that is the same thing as selling five apples for

cent." When he sold the 50 apples he found that he had only 34 cents, which was 16 cents less than he had when he sold the 19 cents. But if the other man had been there and had sold his own apples separately, they would have received 35 cents. Now, how is that explained?
